

## Desk Lamps

We have a large choice of incandescent, halogen and fluorescent desk lights on display. Both modern and traditional styles. This site will give you some idea as to the type and variety of desk and task lighting available in our showroom. Halogen desk lights are usually 20 or 50 watt and have the flexibility to meet most requirements.

Task lighting can come in a variety of forms. But usually flexibility is essential to provide good lighting.

Hobby and specialist task lights, or lighting for visually impaired. For study area desk lights The light output should be equal to or greater than a 60 watt light globe.

This quantity of light is usually required for study.
