

D.I.Y. Lighting

D. I. Y. or (batten fix) ceiling lighting is designed to be easily installed without the need for an electrician. They now come in many styles, including 240 volt halogen models, fluorescent and incandescent. This page will give you some idea as to the type and variety of D.I.Y lighting available in our showroom.

Batten fix oysters, pendants and directional lights.

All can be seen in our showroom.

Both modern and traditional styles from over 15 companies.

Batten fix light fittings are designed to fit over a batten holder mounted on the ceiling.

With all batten fix fittings you are limited in the size of lamp that can be used.

Most are designed to take only 60 watt lamps.
