

Exterior Lights

More than 200 low voltage garden lights are on display in our showroom. Both modern and traditional styles from over 20 companies. Low voltage lighting is available in many styles and colours. Fittings are made from different materials stainless steel, copper and anodised or powder coated aluminium.

View more than 200 traditional exterior ceiling, wall and garden lights that can add that final touch and provide safety and security.

With movement activated sensor switches connected to exterior lighting you can have light when and where you want it.

Stainless steel light fittings add the final touch to many modern homes.
