

## Fans

Fans on display are in a variety of sizes colours and styles. Most are light adaptable and available with remote control. All fans are reversible for winter air circulation and a number of suppliers provide a variety of lights that can be installed on most model fans. Most fans have timber blades, the metal bladed fans are better for increased air flow or where a stainless steel finish is required.

Casablanca Fans are good quality economy fans.

Metal or timber blades.

An excellent Bedroom fan.

Available in White, Beige and Brass with timber blades, without light or with a choice of oyster or clipper light.

A range of light fittings are available to place on most fans.

See Bathroom page for information on ceiling, wall and window exhaust fans.

[Omega - Sahara - Stainless Steel.] [Hunter Pacific - Concept - Brushed Aluminium with light.][Omega - Monterey.]

[Omega - Sahara - White.]

[Hunter Pacific - Aurora.][Casablanca - Brass with oyster light.]
